

# Tree Planting Gel™

*A unique planting gel designed to increase survival rates.*

The **Tree Planting Gel™** has been scientifically designed to aid in the survival of tree saplings. It is applied around the root zone at planting to provide essential plant nutrients, water and natural tree growth stimulants. Often saplings are planted in less than ideal moisture conditions so adding the gel provides a valuable water source for the fragile sapling.

## Key Benefits

- Increases survival of young trees and increased growth rates.
- Improves plant health to actively help against plant stress periods.
- Provides moisture at the critical sapling stage.
- Will keep working for up to 5 years.
- Reduces watering by 50%
- Reduces transplant shock
- Suitable for sustainable farming as it is non-toxic and environmentally safe.

## Packaging

1 kg bucket (with 20 g scoop), 5 kg bucket (with 20 g scoop), 10 kg bucket (with 20 g scoop)

Product Codes: GEL-1, GEL-5, GEL-10

## Typical Analysis (w/w)

Nitrogen ..... 1.28%  
Phosphorus.....0.65%  
Potassium ..... 1.41%  
Sulphur..... 1.40%  
Calcium..... 3.40%  
Magnesium..... 5.0mg/kg  
Iron..... 5.0mg/kg  
Zinc ..... 0.1mg/kg

Also contains fish emulsion and liquid kelp
